Visa Status: Visit Visa | Available for Immediate Joining | Indian

PROFESSIONAL SUMMARY

MERN Stack Developer with 2.5+ years of experience building scalable web and mobile applications across ecommerce, ERP, and service-based platforms. Proficient in React, React Native, Node.js, MongoDB, TypeScript, and Redux Toolkit. Hands-on experience with real-time features, payment gateway integration (PhonePe), Firebase push notifications, Docker, CI/CD pipelines, REST APIs, and AI agent implementation. Focused on clean architecture and intuitive, user-centric interfaces. Currently based in the UAE on a visit visa and available for immediate joining.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, React Native, Expo, Redux Toolkit, React Context, React Router DOM, Tailwind CSS, react-native-paper

Backend: Node.js, Express.js

Databases: MongoDB

Tools & Platforms: Git, GitHub, Docker, Firebase, PhonePe Payment Gateway, CI/CD Pipelines

Concepts: REST APIs, Real-time Features, Authentication (JWT), Cross-platform Development, AI Agent Integration, ERP Module Development

PROFESSIONAL EXPERIENCE

MERN Stack Developer

09/2025 – 03/2026

Easedementia Technologies Pvt. Ltd. — Thykoodam, Ernakulam, India

- Designed and developed full-stack applications using the MERN stack with scalable, modular architecture.
- Implemented AI agents and chatbots to automate customer interactions and support workflows.
- Introduced Docker and CI/CD pipelines, reducing deployment time and improving delivery consistency.
- Led technology planning and adoption for AI, automation, and server infrastructure.

React Developer

01/2025 – 08/2025

Lifisin Technologies Pvt. Ltd. — Ernakulam, Kerala, India

- Built and maintained ERP module UIs for HR and Payroll/Salary management using React, TypeScript, and Redux Toolkit.
- Developed a reusable component library and managed application-wide state with Redux Toolkit, improving code maintainability across modules.
- Collaborated with backend engineers and QA to ensure on-time feature delivery and bug resolution.

React Native Developer & React Developer

05/2023 – 01/2025

Diginest Solutions — Technopark, Trivandrum, India

- Engineered cross-platform mobile applications using React Native and JavaScript for clients across e-commerce and healthcare verticals.
- Developed and shipped Ayur-DX (medicine ordering app) with Firebase Push Notifications and PhonePe Payment Gateway integration — live on both Play Store and App Store.
- Built Bitesmate (food ordering app) featuring a slot-based ordering system and real-time order management, styled with Tailwind CSS and react-native-paper.
- Developed QbuyPanda, a multi-theme e-commerce platform with real-time delivery tracking, location-based product suggestions, and a coupon/rewards system.
- Built Lavesco, a dual-sided job portal (job seeker + job provider) with Redux Toolkit state management.
- Contributed to Rightpath (medical card purchasing web app) using React, React Context, and React Router DOM.
- Maintained Bitesmate Admin web app, adding delivery slot management, blog creation, and order management features.

KEY PROJECTS

Lifisin Technologies ERP System | React, TypeScript, Redux Toolkit

ERP module system for HR and Admin functions including employee management. Built reusable UI components and managed application-wide state for HR and Payroll/Salary modules.

Easedementia Technologies – Official Website | MERN Stack, Docker, CI/CD

Official company website built on the MERN stack. Handled end-to-end planning and execution including technology decisions and deployment pipeline setup.

Ayur-DX – Medicine Ordering App | React Native, Firebase, PhonePe

Cross-platform iOS & Android app for purchasing Ayurvedic medicine. Integrated real-time push notifications and a secure in-app payment gateway.

Bitesmate – Food Ordering App | React Native, Tailwind CSS, react-native-paper

Slot-based food ordering platform with intuitive UI and seamless delivery management. Live on Play Store & App Store.

QbuyPanda – E-Commerce Platform | React Native, Redux Toolkit

Multi-flavour e-commerce app (Fashion, Green, Panda) with real-time delivery tracking, location-based recommendations, and vendor-specific purchasing windows.

Lavesco – Job Portal | React Native, Redux Toolkit

Dual-sided platform connecting job providers and seekers with full application lifecycle management and real-time sync.

Rightpath – Medical Card Platform | React, Tailwind CSS, React Context, React Router DOM

Web platform for purchasing individual, family, and corporate medical cards.

EDUCATION

Bachelor of Science in Computer Science

Mohammed Sathak College of Arts and Science, India

2016 – 2019
